## \* WESTMINSTER PASTOR TO PR FINAL SERMONS HERE ON SUN

Rev. John E. Abbott and Family Are to Leave Before Christmas for Kansas City; Woman's Board of Missions Day to be Observed at the First Christian Church: Rev. J. F. Williams, D. D., Returns.

T the Westminster Presbyterian church on Sunday Rev. John E. Abbott will greach probably his sermon as paster of the church are Degember 10 Mr. Abbott expects have, with his family, for his new postinge, which is the church of the church in Wester in Western he having A church on Sunday Rev. John E. Abbott will preach probably his final sermon as paster of the church. Before December 20 Mr. Abbott expects to leave, with his family, for his new field of labor in Missouri, he having been chosen by the Missouri synod as a state worker or missionary. His headquarters will be at Kansas City.

Mr. Abbott's sermon at Westminster Mr. Abbott's sermon at Westminster Presbyterian church Sunday morning will be on "The Life That Abides," and he will have some words of farewell to his congregation. In the evening his sermon subject will be: "One Soweth and Another Reapeth." At both services there will be special music. The Intermediate Christian Endeavor so-olety meets at 4 p.m., and the Senior Endeavor at 6.30 p.m.

Luring the pastorate of Mr. Abbott. Westminster congregation has built a new and large church structure to replace the small building which formerly was on the present site, and the clurch has grown in membership and in activity greatly.

American Financiers Plan Gigantic Trade Expansion In Many Foreign Countries

New York, Dec. 11.—That the bankalive to the possibilities that are afforded at the present time to develop American interests in foreign enter-

American interests in foreign enterprises on a larger scale and by different methods than heretofore employed is revealed by the formation of a corporation in this city with a capitalisation of \$50,000,000.

It is proposed to finance and devolp great public and private undertakings in foreign countries by American engineers, to assist in financing the rehabilitation of industries in foreign countries, and to undertake such domestic business as would be advantageous in connection therewith.

The directors embrace representatives of more corporations than were ever before assembled in one company.

seffool hour. Epworth league is at 6:30

women's Board of Missions Day.

Seek, ye the Lord, while he may be found, call ye upon him while he is near.

Let the wicked forsake his way, and the unrighteous man his thoughts: and let him return unto the Lord, and he will have mercy upon him; and to our God, for he will abundantly pardon.

For my thoughts are not your thoughts, neither are your ways my ways saith the Lord.

For as the heavens are higher than the earth, so are my ways higher than your ways and my thoughts than your ways and my thoughts than your houghts.

For as the rain cometh down, and the snow from heaven, and returnesh not thither, but watereth the earth, and makeful it bring forth and bud, that it may give seed to the sower, and bread to the eater.

So shall my word be that soeth forth out of my mouth: it shall not return unto me void, but it shall not return unto me void, bu

hands.
Instead of the thorn shall come up the fir tree, and instead of the brier shall come up the myrtle tree: and for an everlasting sign that shall not be cut off.

### Mexican Scientist Has Found Cheap Method of Taking X-Ray Pictures

Mexico City, Mex., Dec. 18.—Dr. Man-el Peres Amador, director of the gov-rnment institute for blological re-arch, has announced the discourse

tubes or expensive apparatus of any kind.

Employing an ordinary plate holder of a camera, Dr. Amador placed the body of a lisard on the outer surface of the apsaue slide, under which was a photographic plate. A short distance above the opaque slide he suspended an ordinary tin shade of an electric lamp, to the inner surface of which crystals of highly purified white sniphur had been made to adhere.

The resultant radi-active rays penetrated the body of the lisard and the opaque slide and impressed a perfect image of the skeleton and the internal organs of the reptile on the plate inside the holder. A large number of scientific men witnessed the demonstration.

Dr. Amador claims to have discovered a cheap substitute for radium, during his experiments of the past eligible years, with the radio active properities of white sulphur.

DETROIT COPPER CO. MAY SEND MEN TO WORK CLAIMS

Phoenix Aris, Dec. 16.—Notification has been served upon James G. Cash, sheriff of Groonlee county, that the Detroit Copper company intends shortly to send men from Duncan to Morenol to perform annual assessment work upon its outlying unpatented claims. This information has reached Adit. Gen. Charles W. Harris through Capt. Frank W. Hall, in command of the national guard company stationed at Morenci.

Capt. Frank W. Hall, in command of the orational guard company stationed at Morenci.

There is no question of the prespany to carry out this plan." stated Col.-Harris. "I sincerely hope, however, that the plan will be absundant, for start trouble. The strikers at Morenci are not going to let anybody work in that district for any of the companies involved in the strike."

It is believed that action of 15e strikers in holding up and searching two A. & N. A. trains for strikebreakers may cause federal troops to be sent into the district.

R. K. Minson, general traffic manager of the railroad, reported the occurrence to the state corporation commission which whred Minson today that he would have to look to the federal government as well as the state for protection for interstate traffic.

#### Living Quarters \$50,000 Yearly in New York's New Millionaire Apartment

censive apartment house in the world a about to be creeted in Fifth avenue. Plans and specifications have been Plans and specifications have been drawn, and a contract has been awarded for its erection at an estimated cost of \$2,500,000. The site alone represents an investment of \$1,490,000.

The plans call for a 12 story structure, one apartment to a floor, and each to consist of from 15 to 29 rooms and eighth baths.

The rental for a single apartment is to be \$25,000 to 50,000. It is claimed that the building when completed, with service and all appointments, will be the most elaborate and luxurious in the world.

# Safety First It Is Better To Be Safe Than Sorry

Mrs. Darwin has certainly stirred up the people of El Paso over the disgustingly dirty conditions prevailing in many of the food selling establishments

We have preached and printed the difference between Clean Dairies and Dirty Dairies for years, but it takes an outsider to wake up the community on the milk question.

Now that you are at last awake please note that at this dairy these essential Sanitary Precautions are followed daily:

1. Plenty of room for Cattle and Plant; 80 acres of Sandy Soil devoted just to the Dairy alone. Manure removed twice daily from Barns and Yards. Corrals kept free of Manure by constant hauling.

3. Concrete floor and gutters in barns scrubbed daily. 4. Cows tubercula tested. Not a reactor in our great heard. We raise our own healthy cows,

the only way to get them. Milkers and all other employees live at the dairy. They and their families are under the supervision of . physician. W. king our loy es are healthy and come from disease free homes.

Cows are thoroughly groomed every day. 7. Milkers and Creamery Men wear white uniforms washed daily. Milkers wash their hands before commencing milking.

A large sanitary building where the mil is bottled by machinery. The only dairy that has a bottle sterlizing machine where every bottle and case is boiled, reboiled and then steamed after they have been most carefully washed by brushes. This is most important as it insures a sterile bottle to receive the mlk. 10. Tihe only dairy that uses ice machines to rapidly cool and preserve the milk. We have

two, one at our Model dairy, and the other at our city Depot, to keep it cold until delivered to you. 11. Rapid transportation by Auto trucks under ice and up to date delivery system. Twenty five years experience in the Dairy business, growing from one cow to 800; from nothing to one of the largest in the world. Years of close association with the largest and best Milk

Dealers n the United States and personal inspection of the best producing and treating plants. That means much experience and knowledge of how to Produce Sanitary Milk. 13. Thorough, reliable and experienced men at the head of each department giving our customers the advantage of their experience.

14. Maintaining a special delivery service to take care of wants of our customers who cannot anticipate their needs in time for the regular deliveries. The 14 points, Mr. Customer, are worthy of your consideration, why not patronize a clean, sanitary dairy that safeguards your milk at every point, instead of one that is too ignorant or careless to

Ask Your Dairyman These 10 Following Questions. If He Can Answer Yes to ALL of Them He Deserves Your Business. If He Cannot He Is NOT

Producing Clean Milk. 1. Is the manure in your yards and corral removed daily to the original soil, at least once in

three months, or have you allowed it to accumulate since you started your Dairy?

4. Do your milkers and creamery men wear clean white uniforms or dirty old blue overalls

Do you groom your cows daily, and wipe their udders at each milking? Do you scrub the floors of your barns every day?

that are never washed? 5. Do you Sterilize your bottles, cans, and all dairy equipment with boiling water and steam? If so, tell how you do it.

6. Do you cool your milk with ice or artificial refrigeration at once after milking and keep it cool? If so tells us how much ice you buy and how you use it. Note it takes one ton of ice to properly

cool, hold and distribute the milk of 100 cows. 7. Do you keep dogs, cats, chickens out of your barns and especially out of your Milk Room? Or would we find these animals and a collection of old clothes, shoes, hats, rags, pipes and miscelaneous subbage in them as Mrs. Darwin did?

8. Do your milkers and other help live at your dairy where you can watch over their health and that of their families?

9. How long before calving do you stop milking your cows, and how many days after calving before you use their milk? 10. Have your cows ample room for exercise in clean yards, or are they jammed up in small

The Dairyman That Cannot Answer These 10 Questions "YES," Without Any Quibbling Is Not Entitled to Your Business. Be Sure and Visit the Dairy You Patronize and See if the Questions Are Answered Truly or if it Is One of the Dirty Ones Mrs. Darwin Cautioned You About.
